OBJECTIVE

Computer Science Engineering student seeking a Software Development Engineer (SDE) internship with hands on experience in Python, backend development, databases, and cloud deployed applications, eager to work across the full software development lifecycle including design, development, testing, and deployment.

EDUCATION

Sathyabama Institute of Science and Technology, B.E. Computer Science Engineering specialized with (Blockchain Technology), CGPA: 7.82	Tamil Nadu 2023 – 2027
SRV Innovative Public School, Higher Secondary Schooling (PCM with Computer Science), 66.8%	Rasipuram, Tamil Nadu 2023
Vetri Vikaas Public School, Secondary Schooling, 78.6%	Rasipuram, Tamil Nadu 2021

TECHNICAL SKILLS

Languages: Python, C, SQL, Solidity, JavaScript, HTML, CSS.
Databases: MySQL, MongoDB (NoSQL), DBMS.
Frameworks & Tools: Flask, Streamlit, React, GitHub, Git, Cloud Deployment (Vercel), AWS.
Software Engineering Concepts: Software Development Lifecycle (SDLC), Unit and Integration testing (Basic), Debugging, Code Reviews, Agile methodologies.
Areas of Interest: Backend development, Blockchain systems, Cloud security.
Soft Skills: Analytical thinking, Problem solving, Self directed learning, System reliability.

PROJECTS

- BlockSafeguard** | [Live](#) | [GitHub](#) Feb 2025
- Designed and developed a backend system for blockchain based DDoS detection, focusing on scalable, reliable, and secure cloud hosted web applications.
 - **Technologies:** Python, Blockchain, Cloud Security
- BlockLens** | [Live](#) | [GitHub](#) July 2025
- Built a modular ML pipeline for image analysis using feature extraction and classification to detect tampering and AI-generated content with real time object detection workflows
 - **Technologies:** Python, Machine Learning, Blockchain
- AgriChain** | [Live](#) | [GitHub](#) Dec 2025 – Present
- Developed a decentralized web application for parametric crop insurance with automated blockchain based claim settlement.
 - **Technologies:** Blockchain, Solidity, Python, MongoDB
- KC Tracker** | [GitHub](#) Feb 2026
- Built an intelligent bank statement parsing engine supporting 25+ Indian banks that converts raw PDF, CSV, Excel transaction data into structured financial ledgers.
 - **Technologies:** Python, SQLite, Pandas, Google Drive API

CERTIFICATIONS

- Google Project Management Professional Certificate
- Software Engineer Intern – HackerRank
- Combining Machine Learning and Rules for Cybersecurity – IBM
- Fundamentals of Encryption & Quantum-Safe Techniques – IBM
- Cloud Infrastructure AI Foundations Associate – Oracle
